Summary

Electronics and Communication Engineering undergraduate with strong skills in Java, Python, SQL, Data Structures and Algorithms, Backend Development, and Computer Vision. Experienced in building AI-powered applications using FastAPI, OpenCV, and YOLO with a keen interest in Software Development, Artificial Intelligence, and Problem Solving.

Education

Lakshmi Narain College of Technology (LNCT)
B.Tech in Electronics and Communication Engineering

2023 – 2027
CGPA: 7.21/10

Projects

Edge-AI Vision Pipeline for Object Detection Python | OpenCV | YOLO

- Developed a real-time object detection system using OpenCV and YOLO to process live video streams with efficient inference.
- Applied image preprocessing techniques to improve detection accuracy and overall performance.
- Explored lightweight deployment using ONNX Runtime for faster model execution on resource-constrained devices.
- Managed source code using Git and GitHub, following version control best practices.

AI Interview Platform (Ongoing) Python | FastAPI | SQLite | SQLAlchemy | JWT

- Designed and developed the backend of an AI Interview Platform using FastAPI with a modular architecture.
- Built RESTful APIs for user registration, authentication, resume upload, and interview management.
- Integrated SQLAlchemy with SQLite for efficient database operations and data persistence.
- Implemented secure user authentication using JWT tokens and bcrypt password hashing.
- Structured the backend to support future AI-based interview evaluation and feedback generation.

Skills

Programming	Java, Python, SQL
Core Concepts	DSA, OOP, Problem Solving
Backend	FastAPI, REST APIs, SQLite, SQLAlchemy, JWT Authentication
Computer Vision	OpenCV, YOLO, ONNX Runtime
Machine Learning	Machine Learning Fundamentals, CNN Fundamentals
Developer Tools	Git, GitHub, VS Code

Certifications

- Cisco Networking Academy Certifications
- FutureSkills Prime Learning Programs
- SmartBridge Technical Training and Workshops
- Java Programming and Object-Oriented Programming Training
